

# An office product to meet every need.

**There's a job waiting to be done:** A routine print job. A single page to be copied. A critical hundred-page report to be printed in full color, then faxed, scanned and emailed to users around the world. Whatever your task, Xerox has the right office printer or multifunction system to help you do the best job, with more speed, reliability and value than you ever thought possible.

## Software to help you be more productive

Along with next-generation products and systems, we're continually adding to our growing portfolio of software solutions and options:

- CentreWare® application suite helps you install, maintain and manage your office technology.
- Smart eSolutions software automates your meter reads and supplies replenishments.
- SMARTsend®, ScanFlowStore™ and SMARTdocument Travel™ streamline and simplify the digital transformation and distribution of your hardcopy documents.
- Scan to PC Desktop™ software simplifies document management and repurposing, providing full PDF workflow capabilities.
- Applications from companies such as Equitrac help you track and control your fleet of print, copy, fax and scan devices.
- Xerox DocuShare® Document Repository software further extends your ability to capture and share knowledge on a global basis.

## Unrivaled service and support

We stand behind our products with a large network of exceptional customer support. Our service professionals employ the latest training in leading-edge technologies, and they're linked to the engineers who designed your product. We optimize our office paper and supplies to ensure peak performance from your equipment.

## Document security ensures your peace of mind

We've created innovative new features to safeguard your sensitive data.

- Our exclusive Image Overwrite Security option removes all trace of files from your device's storage.
- Many of our networked products offer an optional card-based log-in to prevent unauthorized use.
- Secure print and fax features guarantee your information remains confidential.
- We offer the broadest array of products that have earned the NIAP Common Criteria Certification (the international standard for information security).

## Designed to be kind to our planet

We conserve natural resources by designing products to minimize waste throughout their lifecycle, from manufacturing to retirement. They help maximize energy efficiency in your office; our line of fine office papers meets the highest standards of sustainability. And our Green World Alliance program encourages recycling of Xerox-brand used supplies. For more information, please visit [www.xerox.com/environment.html](http://www.xerox.com/environment.html).

## Adaptable to fit the way you work

WorkCentre® systems incorporate the Xerox Extensible Interface Platform (EIP), so it's easy to customize them to fit your business requirements. We've partnered with leading software developers to build powerful applications that can extend and personalize your systems to automate many of your business' document management

processes. Check [www.xerox.com/eipinfo](http://www.xerox.com/eipinfo) for the latest list of EIP compatible products.

## Xerox Office Services

We offer a comprehensive set of business document services, powerful office technologies, processes and tools specifically designed for your business. We will assess your current document production processes and device fleet, develop strategies and supply plans to maximize efficiency and capabilities, then provide ongoing asset management and supply services. We'll work with you to enhance your document management to reduce your costs and improve business productivity.

## Superior technology

In 2007, Xerox was awarded the National Medal of Technology, the United States' highest honor for individuals, teams or companies whose technical contributions have a strong positive impact on national economic, environmental and social well-being.
